Operation	04-05

1. NOTICE

- 1) Thank you for choosing our Cooker Hood. Please read the instruction manual carefully before use.
- 2) The installation work must be undertaken by a qualified and competent fitter.
- 3) The manufacture disclaims all liability for any damage or injury caused as a result of not following instructions for installation contained in the following text.

The Cooker Hood is used on 220~240V, 50Hz.

2. INSTALLATION

- 1) The Cooker Hood should be placed at a distance of 65~75cm (26~30inch) from the cooking surface for the best effect. See Pic 1.
- 2) Install the Hook on a suitable place once the installation height is fixed, and keep it in line. The fixed position of the inside chimney bracket is the place of chimney.
- 3) Put the Cooker Hood on the hook.

3. NOTICE OF INSTALLATION

- 1) Before installation, please ensure the area is clean to avoid suction of the remaining bits of broken wood and dust.
- 2) It cannot share the same air ventilation tube with other appliance such as gas tube, warmer tube, and hot wind tube.
- 3) The bending of ventilation tube should be $\geq 120^\circ\text{C}$, parallel or above the start point and should be connected to the external wall.
- 4) After installation, make sure that the extractor is level to avoid grease collection at one end.

4. SAFETY WARNING

- ◇ Keep your children from using the Cooker Hood.
- ◇ Your Cooker Hood is for domestic use only, not suitable for barbecue, roast shop and other commercial use.
- ◇ Any installation work must be carried out by a qualified electrician or competent person.
- ◇ The Cook Hood and its filter should be cleaned regularly in order to keep in good working order.
- ◇ Before cleaning, always ensure that you have switched your Cooker hood off.
- ◇ If there is any fault with your Cooker Hood, please call the service department appointed by agent for servicing.
- ◇ Do not exhaust the gas from Cooker Hood through the same heated flue which is for the gas from gas hob and other kitchen appliances.
- ◇ Before installation and usage, read all the instructions and make sure that the voltage (V) indicated on your Cooker Hood are exactly the same as voltage (V) in your home.
- ◇ In order to get the most out of your Cooker Hood, please read the instruction manual before installing & using, and keep it in a safe place.
